Proven ability to deploy, optimize, and troubleshoot cloud environments while supporting real-world operational needs and customer-focused solutions.

WORK EXPERIENCE

DevOps CI/CD Implementation with ArgoCD & EKS

Aug 2025 - Dec 2025

Freelance

India

- Architected and executed a GitOps-based CI/CD pipeline integrating GitHub Actions, ArgoCD, and EKS for **systematized deployments**
- Built containerized microservices with Docker; applied GitHub Actions pipelines to build, test, and publish images to Amazon ECR
- Orchestrated deployment lifecycle through ArgoCD, ensuring declarative configuration and synchronization between Git and Kubernetes
- Utilized Helm charts to templatz Kubernetes manifests, enabling scalable multi-environment deployments
- Set up** an observability stack using Prometheus, Grafana, Loki, and Fluent Bit for real-time system metrics, logging, and alerting
- Organized** Grafana alerting integrated with WhatsApp/Slack for proactive incident response
- Achieved faster deployment turnaround, improved traceability, and near-zero manual interventions through a fully **computerized workflow**

Cloud Engineer

Jul 2025 - Jul 2025

Freelance

Bangalore

- Deployed and optimized a WordPress website on AWS Lightsail
- Reduced downtime by **25%** through improved infrastructure stability
- Enhanced website load times by **30%** through performance optimizations
